Chickens Pay

The better the care you give them, the better they pay.

The old idea that chickens are a nuisance is a false idea. Anything that finds a ready market and makes a good return on the investment is far from being a nuisance.

Take good care of the little chicks this year. They are a paying crop, and every pound of "fryer" means money.

It would be a good idea to keep your chicken money separate, and start a Savings Account with a part or all of it in this BANK.

Do that, and watch it grow.
